

Verizon Projects (2019-2025)

Circuit Flow

Circuit Flow was a data heavy application that recommended large or two monitors.

SPM Dashboards - Empathize

SPM Dashboards is a Network Systems project to reduce the large number of bug tickets. This project followed strictly Design Thinking Process (Stanford Model).

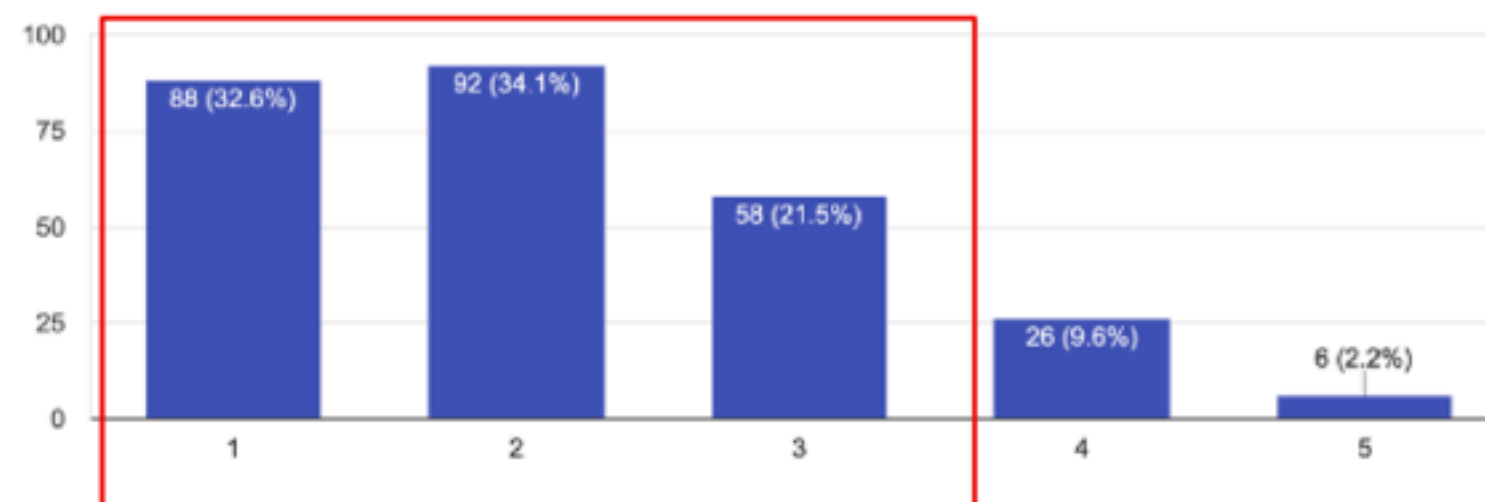

I found FUZE SPM Dashboards easy to use.

270 responses

I wouldn't need the help of technical person to be able to use it.

270 responses

1. Speed & latency **39.9%**
2. Stability **17.3%**
3. Integration **9.5%**
4. Features **8.9%**
5. User Interface **4.8%**
6. Other **11.3%**
7. Not applicable **8.3%**
